

MAËLLE ESNAULT

Multilingual Technical Writer - Industrial & Cooling Products

✉ maelle.esnault@hotmail.com ☎ +33 7 80 56 43 10 📍 Grenoble, France

🌐 [linkedin.com/in/maelle-esnault-techwriter](https://www.linkedin.com/in/maelle-esnault-techwriter)

PROFILE

Multilingual Technical Writer with experience in industrial and engineering-driven environments, specializing in documentation for cooling and electrical products. Fully autonomous in managing the full documentation lifecycle, from technical input collection to publication. Strong collaboration skills with mechanical, electrical, and compliance engineers to deliver clear, structured, and user-focused documentation in international contexts.

CORE SKILLS

Processes & Collaboration

- Cross-functional collaboration (engineering, compliance, quality, marketing)
- Project definition and management, and technical input consolidation
- Documentation lifecycle ownership in industrial environments
- Intercultural communication in multinational teams

Technical Documentation

- Installation, Operation & Maintenance documentation
- Structured authoring (DITA XML) and modular documentation
- Documentation review, validation, and publication workflows
- Technical English for international audiences

Tools & Platforms

- Oxygen XML
- Adobe InDesign, Adobe Acrobat
- Confluence, Jira
- SharePoint
- Microsoft 365

Authoring & Markup Languages

- Structured authoring (DITA XML)
- Markdown
- Basic HTML / CSS

PROFESSIONAL EXPERIENCE

Technical Writer

Schneider Electric

2025 – Present
Grenoble, France

- Facilitate effective communication between engineers and stakeholders from different cultural and geographical backgrounds to ensure accurate and consistent technical documentation
- Own the creation, update, and maintenance of **Installation, Operation & Maintenance documentation** for **industrial cooling and electrical equipment**
- Collect, analyze, and consolidate technical inputs from **mechanical, electrical, and compliance engineers**
- Translate complex engineering data into **clear, structured, and user-friendly technical documentation** in international English
- Manage the **full documentation lifecycle**, from draft creation and review to final PDF publication on internal platforms
- Coordinate with cross-functional stakeholders to ensure **accuracy, consistency, and on-time delivery**
- Contribute to continuous improvement of **documentation workflows, templates, and best practices**
- Work in a multinational environment supporting collaboration across engineering and project teams

Localization Project Coordinator

Fresenius Kabi

- Coordinated multilingual documentation and localization projects for **regulated medical devices**, covering up to **28 languages**
- Reviewed and validated technical translations to ensure **terminology consistency, technical accuracy, and regulatory compliance**
- Acted as the primary interface between internal technical teams and **external translators and language service providers**
- Managed localization workflows, quality checks, and deadlines in accordance with internal procedures

2024 – 2025
Brézins, France

Technical Writer

Schneider Electric

- Created and updated **Installation, Operation & Maintenance (IOM) manuals** for industrial cooling and electrical products
- Collaborated with engineers to gather technical information and clarify complex technical content
- Ensured documentation clarity, consistency, and compliance with internal standards
- Supported documentation review and publication processes on internal platforms
- Built strong familiarity with structured authoring tools, internal workflows, and engineering documentation processes

2023 – 2024
Grenoble, France

ADDITIONAL EXPERIENCE

Customer-facing roles demonstrating adaptability, autonomy, and strong communication skills | Cultural mediation and multilingual communication

EDUCATION

Master's Degree in Foreign Languages, Literature & Civilizations

Université Grenoble Alpes
High Honors

2021
